

2.5Ghz very small right angle stubby WiFi / Bluetooth antenna with SMA male connector

DELTA25/X/SMAM/S/RA/35

Features

- Compact right angle direct connect WiFi / Bluetooth antenna
- 28.1mm overall length
- SMA male connector

The Delta 25 is a compact, right angled, direct connect 2.4GHz stubby antenna at 28.1mm long including the connector. This antenna is available with the SMA male and the Reverse polarity SMA male connectors. The Delta 20 is the straight version of the Delta 25. This range of very compact 2.4GHz direct connect antennas is likely to be the dominant stubby antennas given their performance and size

Electrical characteristics:

- Frequency: 2.4~2.5GHz
- VSWR: ≤ 2.0
- Gain: 0dBi
- Polarization: vertical
- Max power: 1 Watt
- Antennna type: 5/8 wave monopole
- Impedance 50 ohms

Mechanical characteristics:

- Antenna length: 28.1mm
- Operating temp: -25 to +70 degrees
- Storage temp: -35 to +70 degrees
