

# 3.7kW 208/230V Single-Phase Local Metered PDU - 8 C13 & 2 C19 Outlets, L6-20P Input, 6 ft. Cord, 1U, TAA

# MODEL NUMBER: PDUMH20HVL66

Single-phase PDU allows real-time current metering to prevent circuit overloads that could cause costly downtime as additional equipment is connected.

#### **Features**

#### Single-Phase PDU Distributes and Monitors Network-Grade Power in Real Time

This local metered PDU provides real-time local reporting of the total load level via its built-in digital current metering. Ideal for network IT applications, small computer rooms and other equipment rack applications, the PDUMH20HVL66 features eight C13 and two C19 208/230V outlets for connecting equipment. Plug-lock insert sleeves are included to prevent connected cables from becoming accidentally dislodged.

#### Digital Load Meter Helps Prevent Potentially Expensive Overloads

A digital ammeter reports the total load for all connected equipment. Monitoring amperage helps ensure load levels remain well below maximum capacity with no danger of overload that could lead to costly downtime or damaged equipment. Maintaining proper load levels, even while adding new equipment, can keep your TCO (total cost of ownership) low.

#### Versatile Installation Options Give You Plenty of Choices

The reversible all-metal housing comes with mounting brackets for installation in 1U of space or 0U vertical mounting in an EIA-standard 19-inch rack. You can also reorient the brackets for permanent mounting under a counter or on a wall with user-supplied hardware. The six-foot cord with NEMA L6-20P input plug connects the single-phase PDU to a protected UPS system, generator or mains input source for reliable multi-outlet power distribution.

#### **TAA-Compliant for GSA Schedule Purchases**

The PDUMH20HVL66 is compliant with the Federal Trade Agreements Act (TAA), which makes it eligible for GSA (General Services Administration) Schedule and other federal procurement contracts.

### **Highlights**

- 8 C13 and 2 C19 208/230V outlets distribute AC power to connected equipment
- Digital ammeter for on-site realtime load monitoring helps prevent power overloads
- 6 ft. cord with NEMA L6-20P single-phase input connects to AC power source
- Flexible installation options include 1U and 0U rack, under counter and on wall
- Compliant with the Federal Trade Agreements Act (TAA) for GSA Schedule purchases

#### **Applications**

- Deliver network-grade power to high-density equipment in networking, telecom, security, audio/video and sound reinforcement applications
- Monitor power load in real time from all connected computers, switches, servers and other networking equipment

## Package Includes

- PDUMH20HVL66 3.7kW Single-Phase Local Metered PDU
- (10) Plug-lock insert sleeves
- Rack-mounting hardware
- Owner's manual

# **Specifications**

OVERVIEW		
UPC Code	037332255785	
PDU Type	Local Metered	
INPUT		
Input Phase	Single-Phase	
PDU Input Voltage	208; 230	
Recommended Electrical Service	Single-phase 20A 208/230V service	
Maximum Input Amps	16	
Maximum Input Amps Details	Agency de-rated to 16A continuous	

Input Cord Details Atta Input Cord Length (ft.) 6 Input Cord Length (m) 1.83  OUTPUT  Output Capacity Details 3.7k Frequency Compatibility 50 / Output Receptacles (8) 0  Output Nominal Voltage 208/	7kW (230V), 3.33kW (208V) / 16A total capacity; 16A max per C19 outlet  / 60 Hz  C13; (2) C19  8/230V
