Product Description

Prepunched MM-WMT... conductor markers made of polyester are slid onto the conductors and cannot break off.

Your advantages

- ✓ The pre-punched geometry enables easy and convenient use
- ✓ Thanks to the innovative material composition, each label can be printed which results in zero wastage
- ✓ Easy and efficient material cartridge system: Includes both the material to be printed and the corresponding ink ribbon
- ✓ No visible difference between retrospective marking and existing markings created with a desktop roll printer
- ✓ The conductor is simply pushed through the two punch-outs on the marker. In this way, the marker is aligned on the conductor.
- ✓ The special hole geometry for different conductor gauges ensures strong axial support
- ✓ High-quality and solvent-resistant marking solution for industrial applications that is created by means of thermal transfer printing
