Program and configuration memory, plug-in, 512 MB with license key for functional block libraries, e.g., for: SNMP, SQL, wireless, motion functions, etc.

Similar figure

### Product Description

Program and configuration memory for storing the application program and other files in the file system of the PLC, with license key for the function block libraries.

Individual function blocks from Phoenix Contact, such as those from the SQL and SNMP library or Resy+, are licensed, which means that a fee is charged for each controller on which licensed blocks are to be used. The blocks check the license stored on the controller during runtime and enable themselves or run for a limited time in demo mode.

Examples:

- Basic control functions for PID controllers with delay time constant in the D component
- Data transfer between the controller and SQL database with event-driven access to tables by means of SQL communication and Data Manipulation Language (DML)
- IT library for sending e-mails with the SMTP function, with DHCP client, DNS, and an FTP client function
- Secure, event-oriented, and inexpensive monitoring of all distributed plants via Ethernet as well as via serial interfaces

Please observe the specified performance data of your controller(s) and check that it/they are suitable for your application.

For users who do not use the function block libraries, the program and configuration memory is also available without a license as an option.

### Why buy this product

- Program and configuration memory, plug-in, 512 MB with license key for function block libraries.
- For storing application programs and other files in the file system of the PLC

### Key Commercial Data

Packing unit	1 STK
Weight per Piece (excluding packing)	1.000 g
Custom tariff number	85235199
Country of origin	Germany

# Memory - SD FLASH 512MB APPLIC A - 2701799

## Technical data

Product type	Parameterization memory

## Accessories

### Accessories

#### Controller

Controller - ILC 131 ETH - 2700973

The Inline controller offers the option of communicating via PROFINET and Modbus/TCP. Programming is carried out using PC Worx Express or PC Worx (IEC 61131-3).

## Memory - SD FLASH 512MB APPLIC A - 2701799

### Accessories

#### Controller - ILC 131 ETH/XC - 2701034

Inline controller for use under harsh ambient conditions, with Ethernet interface for coupling to other controllers and systems, with programming options according to IEC 61131-3, complete with connector and labeling field.

---

#### Controller - ILC 151 ETH - 2700974

The Inline controller offers the option of communicating via PROFINET and Modbus/TCP. Programming is carried out using PC Worx Express or PC Worx (IEC 61131-3).

---

#### Controller - ILC 151 ETH/XC - 2701141

Inline controller for use under harsh ambient conditions, with Ethernet interface for coupling to other controllers and systems, with programming options according to IEC 61131-3, complete with connector and labeling field.

---

#### Controller - ILC 171 ETH 2TX - 2700975

The Inline controller offers the option of communicating via PROFINET and Modbus/TCP. Programming is carried out using PC Worx Express or PC Worx (IEC 61131-3).

---

#### Controller - ILC 191 ETH 2TX - 2700976

The Inline controller offers the option of communicating via PROFINET and Modbus/TCP. Programming is carried out using PC Worx Express or PC Worx (IEC 61131-3).

---

## Memory - SD FLASH 512MB APPLIC A - 2701799

### Accessories

#### Controller - ILC 191 ME/AN - 2700074

Inline controller with integrated pulse/direction/PWM interface, RS-485/RS-422, analog inputs (0 ... 10 V), and analog outputs (0 ... 10 V), with programming options according to IEC 61131-3

---

#### Controller - ILC 191 ME/INC - 2700075

Inline controller with integrated pulse/direction/PWM interface, RS-485/RS-422, fast counters, and incremental encoder inputs, with programming options according to IEC 61131-3

---

#### Controller - AXC 1050 - 2700988

Axio control for direct open-loop control of Axiline I/Os. With 2 Ethernet interfaces and programming capabilities according to IEC 61131-3. Complete with connector connector and labeling field.

---

#### Controller - AXC 1050 XC - 2701295

Axiocontrol for the direct control of Axiline I/Os. With 2 Ethernet interfaces, extended temperature range, and programming options according to IEC 61131-3. Complete with connector connector and marking field.

---
