

Description

- Compact, convenient size for organizing and standardizing tool and bottle placement at the workstation
- Aesthetically improves the appearance of the work area
- Includes openings for bottles, holes for hand tools, swabs and miscellaneous items
- OD Dimension: 11 1/4" x 8" x 2 1/4"
- Easily assembled
- Marked with ESD Protective symbol per ANSI/ESD S541
- Custom configurations available
- Static Dissipative surface 10E6 to 10E8 ohms per ANSI/ESD S11.11 minimizing the potential of rapid discharge or sparking
- Impregnated Corrugated material superior material with greater durability than painted material
- Made from 100% Recycled material and is 100% recyclable
- Made in America

"It should be understood that any object, item, material or person could be a source of static electricity in the work environment. Removal of unnecessary nonconductors, replacing nonconductive materials with dissipative or conductive materials and grounding all conductors are the principle methods of controlling static electricity in the workplace, regardless of the activity." [ESD Handbook ESD TR20.20-2008 section 2.4 Sources of Static Electricity]
