

- · Universal AC input / Full range
- · 2 pole US plug, Class Ⅱ power unit
- No load power consumption<0.1W
- Energy efficiency Level VI
- Comply with EISA 2007/DoE
- Protections: Short circuit / Overload / Over voltage
- Fully enclosed plastic case
- · Pass LPS
- Various DC plug quick adapter accessory available
 (Plug kit sold sperately, please refer to : https://www.meanwell.com/upload/pdf/DC plug.pdf)
- · 2 years warranty

■ Applications

- · Consumer electronic devices
- Telecommunication devices
- · Office facilities
- · Industrial equipments

Description

GS06U is a highly reliable, 6W wall-mounted style single-output green adaptor series. This product is a class II power unit (no FG), equipped with a 2-Pin standard USA AC power plug, adopting the input range from 90VAC to 264VAC. The entire series supplies different models with output voltages ranging between 5VDC and 48VDC that can satisfy the demands for various types of consumer electronic devices. With the efficiency up to 83% and the extremely low no-load power consumption below 0.075W, GS06U is compliant with USA EISA 2007/DoE. The supreme feature allows the adaptor to save the energy when it is either under the operating mode or the standby mode. The entire series utilizes the 94V-0 flame retardant plastic case, providing the double insulation that effectively prevents electrical shock.

■ Model Encoding

■ DC output plug

O Standard plug: P1J

Unit:mm

- O DC plug changeable through:
 - (1) Customization of the standard part with an optional DC plug according to the table (MOQ applicable)
 - (2) Quick adapter accessory (sold separately without MOQ)

Please refer to below table and online selection guide: https://www.meanwell.com/upload/pdf/DC_plug.pdf

Example quick adapter accessory:

Optional DC plug: (Available in customized cable or quick adapter)
