Description for Product Change Notification

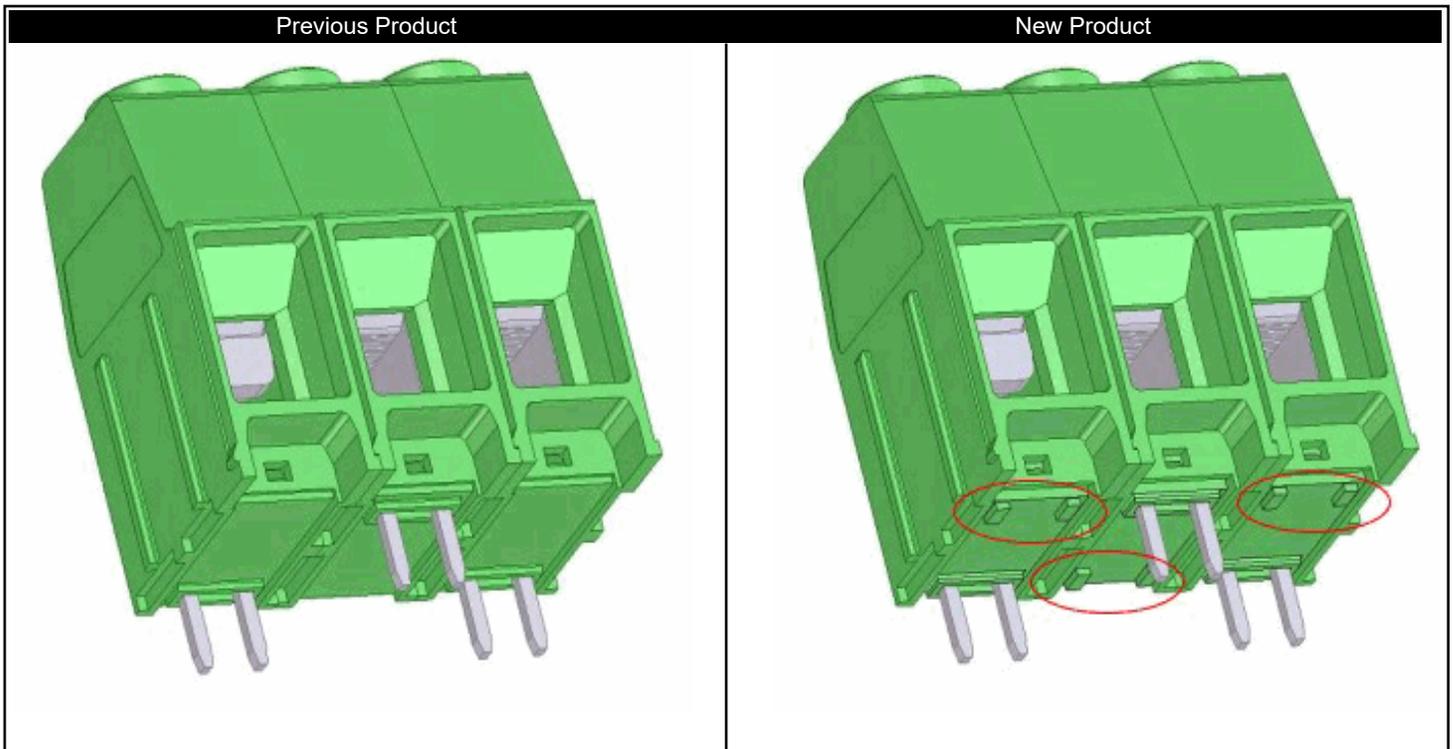

As part of our ongoing improvement process, the contour of the MKDS 10 HV terminal block base is being changed. Two ribs will be added. These additional ribs help prevent the housing from moving when forces are applied to the terminal sleeve, therefore simplifying operation. Shipments of the new versions are expected to begin on April 1, 2021 depending on local inventory. The version/revision level (V/C) will be changed as noted on the attached spreadsheet.
