### 20W Single Output LED Power Supply

# PLN-20 series

### Features :

- Universal AC input / Full range(up to 277VAC)
- Protections:Short circuit/Over current/Over voltage/Over temperature
- Cooling by free air convection
- Built-in constant current limiting circuit with adjustable OCP level
- Fully isolated plastic case
- Built-in active PFC function
- IP64 design for indoor or outdoor installations
- · Small and compact size
- Class II power unit, no FG
- 100% full load burn-in test
- · High reliability, low cost
- Suitable for Dry / Damp locations
- Suitable for LED lighting and moving sign applications

## PLN-20 series

File Name: PLN-20-SPEC 2021-08-17

### Power Factor Characteristic

### EFFICIENCY vs LOAD (48V Model)

PLN-20 series possess superior working efficiency that up to 83.5% can be reached in field applications.

### DRIVING METHODS OF LED MODULE

This LED power supply is suggested to work in constant current mode area (CC) to drive the LEDs.

In the constant current region, the highest voltage at the output of the driver depends on the configuration of the end systems.

Should there be any compatibility issues, please contact MEAN WELL.
