## **DIGILENT**

Sticky Rubber Tires (Pair): Kraton Polymer Wheel Covers to Add Traction to the Digilent Wheel Kit

SKU: 290-022

## Description

Made from a special "kraton" polymer (14 Shore A), these tires are very sticky, giving them excellent traction over a wide variety of surfaces. They are ideal for Mini-Sumo competitions, where traction is vital to your success.

## Features:

- Made specifically to fit our ABS plastic wheels
- Made from a special "kraton" polymer
- Excellent traction on nearly any surface
- · Ideal for "Mini-Sumo" robots
