

# Vishay BCcomponents

### **Film Dielectric Trimmers**

### **FEATURES**

- High temperature type
- Housing dimensions:6 mm x 8 mm x 9 mm
- For a basic grid of 2.54 mm
- Top and bottom adjustment
- · Round head
- · Mounting: Radial
- Material categorization: For definitions of compliance please see <a href="https://www.vishay.com/doc?99912"><u>www.vishay.com/doc?99912</u></a>

# Pb-free

# COMPLIAN

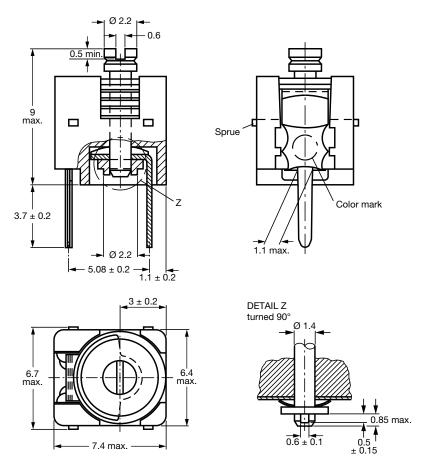

### **APPLICATIONS**

- Antennas
- · Impedance matching circuits
- Medical
- RF
- For fine adjustment in professional applications

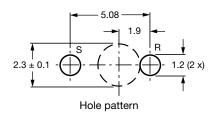

QUICK REFERENCE DATA				
Rated DC voltage		300 V <sub>DC</sub>		
Test DC voltage for 1 min		600 V <sub>DC</sub>		
Maximum contact resistance		5 mΩ		
Minimum insulation resistance between stator and rotor		10 000 MΩ		
Category temperature range		- 40 °C to + 125 °C		
Climatic category (IEC 60068)		40/125/21		
Minimum storage temperature		- 55 °C		
Related specification		IEC 60418-1 and 4		
Effective angle of rotation		180° (rotation in 180° only, see "Life of trimmer")		
Operating torque	C <sub>max.</sub> < 3.5 pF	1 mNm to 15 mNm		
Operating torque	C <sub>max.</sub> ≥ 3.5 pF	1 mNm to 20 mNm		
Maximum axial thrust		2 N		
Capacitance range (C <sub>min.</sub> /C <sub>max.</sub> )		1.2 pF/3.5 pF to 2 pF/18 pF		
Life of trimmer		Maximum 10 cycles: Rotation in 180° only (the electrical and mechanical performance is not guaranteed if rotated beyond 10 cycles)		
Quality level		Sampling and data evaluation for quality level in accordance with "MIL-STD-105D" and "IEC 60410":		
		< 0.15 % major defects < 0.65 % minor defects		
		Each capacitor is tested for minimum $C_{\text{max.}}$ and is also subjected to the full test voltage.		

### **DIMENSIONS** in millimeters

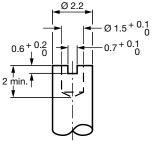

Trimmers BFC2 809 05... series, with round heads

### **ADJUSTMENT**

For top adjustment a screwdriver or trimming key can be used; for bottom adjustment a key is required as shown below.

Bottom adjustment key

# Vishay BCcomponents

ORDERING INFORMATION					
	ER BFC2 809 05				
C <sub>min.</sub> /C <sub>max.</sub>	TOP AND BOTTOM ADJUSTMENT				
(pF)	ROUND HEAD	ROUND HEAD AND FLUX GUARD			
1.2/3.5	215	001			
1.8/10	216	002			
2/18	217	003			

### **MOUNTING**

The trimmer can be mounted on printed-circuit boards with a minimum hole diameter of 2.54 mm.

### **PACKAGING**

Blister packs of 70 units each. For smallest packaging quantity (SPQ) see "Electrical Data" table.

## **Disclaimer**

ALL PRODUCT, PRODUCT SPECIFICATIONS AND DATA ARE SUBJECT TO CHANGE WITHOUT NOTICE TO IMPROVE RELIABILITY, FUNCTION OR DESIGN OR OTHERWISE.

Vishay Intertechnology, Inc., its affiliates, agents, and employees, and all persons acting on its or their behalf (collectively, "Vishay"), disclaim any and all liability for any errors, inaccuracies or incompleteness contained in any datasheet or in any other disclosure relating to any product.

Vishay makes no warranty, representation or guarantee regarding the suitability of the products for any particular purpose or the continuing production of any product. To the maximum extent permitted by applicable law, Vishay disclaims (i) any and all liability arising out of the application or use of any product, (ii) any and all liability, including without limitation special, consequential or incidental damages, and (iii) any and all implied warranties, including warranties of fitness for particular purpose, non-infringement and merchantability.

Statements regarding the suitability of products for certain types of applications are based on Vishay's knowledge of typical requirements that are often placed on Vishay products in generic applications. Such statements are not binding statements about the suitability of products for a particular application. It is the customer's responsibility to validate that a particular product with the properties described in the product specification is suitable for use in a particular application. Parameters provided in datasheets and/or specifications may vary in different applications and performance may vary over time. All operating parameters, including typical parameters, must be validated for each customer application by the customer's technical experts. Product specifications do not expand or otherwise modify Vishay's terms and conditions of purchase, including but not limited to the warranty expressed therein.

Except as expressly indicated in writing, Vishay products are not designed for use in medical, life-saving, or life-sustaining applications or for any other application in which the failure of the Vishay product could result in personal injury or death. Customers using or selling Vishay products not expressly indicated for use in such applications do so at their own risk. Please contact authorized Vishay personnel to obtain written terms and conditions regarding products designed for such applications.

No license, express or implied, by estoppel or otherwise, to any intellectual property rights is granted by this document or by any conduct of Vishay. Product names and markings noted herein may be trademarks of their respective owners.

# **Material Category Policy**

Vishay Intertechnology, Inc. hereby certifies that all its products that are identified as RoHS-Compliant fulfill the definitions and restrictions defined under Directive 2011/65/EU of The European Parliament and of the Council of June 8, 2011 on the restriction of the use of certain hazardous substances in electrical and electronic equipment (EEE) - recast, unless otherwise specified as non-compliant.

Please note that some Vishay documentation may still make reference to RoHS Directive 2002/95/EC. We confirm that all the products identified as being compliant to Directive 2002/95/EC conform to Directive 2011/65/EU.

Vishay Intertechnology, Inc. hereby certifies that all its products that are identified as Halogen-Free follow Halogen-Free requirements as per JEDEC JS709A standards. Please note that some Vishay documentation may still make reference to the IEC 61249-2-21 definition. We confirm that all the products identified as being compliant to IEC 61249-2-21 conform to JEDEC JS709A standards.
