The diagram shows a rectangular component labeled 'f2'. It features a central grid of 15 columns and 10 rows of small squares. The top row of these squares has a cross-hatch pattern. The entire grid is surrounded by a thin black border. To the left of the component, there are three labels with leader lines: 'z2' points to the top edge, 'b2' points to the right edge, and 'd2' points to the bottom edge. On the far left, there is a vertical dimension line with arrows at both ends, labeled '19.8 MAX' vertically. At the bottom left, there is another dimension line with arrows, labeled '85.4 MIN' horizontally. In the center of the diagram, there is a calculation: '15x [5,08] = [76.2]'.

A technical drawing of a mechanical part, likely a housing or base. The part has a central vertical slot with a width of 88.9 mm. On the left side, there is a flange with a height of 22.1 mm and a diameter of Ø2.5 MIN. A callout arrow labeled '4' points to a specific feature on the right side, which appears to be a mounting bracket or a support structure.
