Title: Change to Some D-Sub Hoods

Date: 04/12/2021

Page 1/3

Dear Customer,

We have made a minor change to the Inducom hoods

1. Concerned Part Numbers:

See list on page 3.

2. Description of change:

At the end of 2019 HARTING changed the design of some D-Sub Hoods. At the outer side of the hoods a 2nd slit was added (see picture below). This slit was intended for use with a mechanical coding option to be launched in the future. Please be informed, that HARTING will eliminate this 2nd slit. With this change the overall length of the hoods will be reduced to the same dimension as the pre-2019 design

Current design
2 slits

future design
1 slit

(the pictures show a side view of the 9-pole hood)

When the new coding system is introduced we will create separate part numbers for the corresponding hoods with two slits.

Date: 04/12/2021

Page 2/3

3. Impact on product specification

The functional characteristics will remain unchanged and the new generation will be backward compatible with the today's versions.

4. Scheduled date of implementation

The 1 slit types will be produced from 2021/10/01.

5. Identification of change

Part numbers will remain unchanged, only the revision level will be changed.

6. Data sheet

With the delivery of the new versions, the following technical data will be updated in the HARTING e-catalogue accordingly:

- Data-sheets
- Type-sheets (2D drawings)
- 3D models

Regards,

Phill Shaw
