Related Products (each sold separately):

- PS019-0212: Protective Wear Dispenser - Slimline (shown below with PA004-0212 attached)

Installation

Always mount dispensers securely *prior* to loading with product.

- Mount securely to a wall with screws approved and supplied by building maintenance.

- Dispenser can be attached to the bottom a BOWMAN® Protective Wear Dispenser - PS019-0212 with secure plastic rivets.
- Lay units on level surface, align bottom of PS019-0212 with top of PA004-0212. Insert plastic rivets into all four holes and snap together securely.

Parts included:

- Dispenser
- (4x) Pair Plastic Snap Rivets

Tools Required:

- No tools required to assemble dispenser

Care and Construction

ABS Plastic

Material Characteristics

Designed for Long-Term, Heavy-Duty Applications

The combination of copolymers (Acrylonitrile, Butadiene, and Styrene) gives ABS an excellent combination of strength, rigidity, and toughness.

ABS is chemical and stress-crack resistant. It is tough, dimensionally stable, and will hold up to long-term use. It possesses high strength and performance characteristics at a reasonable cost.

Care and Cleaning

Use mild soap and water to clean. Petroleum-based oils, solvents, and paints should not be used.

Standard hospital cleaning supplies are approved for use on our ABS plastic products.
