

BU-123
(Heavy-duty Grounding C-Clamp)

- The BU-123 is a heavy-duty grounding clamp used for high-current applications like welding.
- Overall length 1.9" (48mm), overall width 2.5" (64mm), overall thickness 0.88" (22mm)
- Can clamp onto material up to 0.75" (18mm) thick.
- Includes a 4 AWG x 1.4" crimp/solder lug.
- Material: Zinc-plated cold rolled steel
- Rating: Current 100 Amps
- RoHS 3 compliant
