

## Data Sheet

#### ANPROEE BT-120 Circuit Tracer Transmitter Unit Onky DN Laward Band Mankan Bercene General

# **BT-120** Breaker tracers

The Amprobe breaker finders work on energized systems and are designed to quickly and easily indentify breakers in residential and commercial environments. Automatic sensitivity adjustment removes ambiguity from the results of the tracing, and the receiver will clearly and quickly identify the breaker with sound and light.

- Used to identify circuit breakers
- Automatic sensitivity adjustment is easier to use and faster than the manual one
- Microprocessor controlled design provides extremely accurate readings (always finds the right breaker)
- Durable and dependable
- BT-120 works with standard 120V breakers
- UL Listed

# No hassle warranty

NO HASSLE

No waiting.

No shipping charges.

Our commitment to high-quality products and customer service is demonstrated by our industry exclusive "No Hassle" warranty. In the unlikely event that an Amprobe Test Tool requires warranty service, any of our local dealers are authorized to replace it, on the spot.

(note: \$500 MSLP limit)
