

Model: EIR608-2SFP and EIR608-4SFP Gigabit Eight Port Managed Industrial Ethernet Switches

CE

Features

- ✓ X-Ring Automatic Recovery
- ✓ Up to 8 10/100/1000TX RJ45 Ports with MDI/MDI-X
- ✓ (2 or 4) 100/1000 SFP Ports
- ✓ Dual 12 to 48 VDC Power Inputs
- ✓ Relay Alarm Output
- ✓ IP30 DIN Rail or Panel Mount
- Automatic E-mail Notification for system events
- ✓ SNMP, CLI, or Web Management
- ✓ Port Mirror and Port Trunk with LACP

Functional Description

The Elinx EIR608-xSFP series Industrial Gigabit Managed Ethernet Switches provide powerful functionality in a small package. Designed for industrial applications, these switches contain all the standard features of other switches, such at IGMP Snooping, Port Based VLAN, 802.1Q Tag VLAN, RJ-45 automatic MDI/MDI-X, auto negotiation, store and forward switching, STP, RSTP, Web Based Management, Ingress Packet Filtering, and Egress Rate Control. These managed switches also come with important industrial features to ensure reliability in an industrial application. X-Ring technology with coupling ring and dual homing allows automatic recovery in less than 300 MS. Dual power inputs ensure reliability. A relay alarm output for port failure notification. DIN Rail and Panel Mounting options on the same IP30 case. Another important feature is automatic e-mail notification for system events such as a cold start, change in network topology, power status or SNMP authentication failure. The EIR608-xSFP is also Gigabit capable and comes with 2 or 4 SFP ports which allow the addition of fiber optic ports.

Ordering Information

Model Number	Description
EIR608-2SFP	8 Port Gigabit Industrial Managed Switch w/ 6 copper & (2) copper or SFP Combo ports
EIR608-4SFP	8 Port Gigabit Industrial Managed Switch w/ 4 copper ports and 4 SFP ports
