

- "One-Touch" one-handed operation frees operator's hands for use ٠
- Precision machined valves for smooth consistent operation
- Recommended for one-handed dispensing of liquids, solvents, and • chemicals
- Stainless-steel construction No silicone or latex suitable for ultra ٠ clean environments
- Cam-lock hinge keeps lid open and closed, reduces odors ٠
- Compatible with any 38-400 threaded neck container
- Dispenses approximately 0.2cc of liquid with each pump

Pump Material	Stainless-Steel	
Locks for Travel	No	
Neck Size / Thread	38-400	
Lid-Type	Cam-lock hinge lid	
Gasket Material	LDPE	

## Pump Care:

Some types of fluids may leave a residue in the mechanism of the dispenser. Over time, this can reduce the performance of the pump.

Occasional cleaning is recommended to maintain your unit to original efficiency.

Clean by flushing the mechanism thoroughly with warm soapy water. Flush the mechanism again with clean water to remove any soap residue. Do not boil or steam the dispenser. For long periods of inactivity, pumps should be flushed free of liquid and stored inverted in a dry place.
