Change Description:	Amphenol is migrating to a qualified/approved high performance plating, GXT+ due to the significantly increase in commodity costs. There is no change to the existing plating supply chain or plating location.					
Reason for Change:	Gold and Palladium prices have increase sinificantly over the last several years (see trend attached). While Amphenol has absorbed most of those increases, the pace of inflation is significantly higher than productivity and process gains. Amphenol is implementing GXT+ to avoid passing price increases on to our customer base. For those customers that approve GXT+, your existing connector prices will remain in effect. For customers that don't qualify GXT+ by January 1, 2020, there will be a 8.8% price increase effective on all new orders after that date. This is a running change that current PNs will change to GXT+ after January 1, 2020 . For the customers want to keep current GXT plating, please contact Amphenol to assign new PN.
