### MODEL NUMBER: P502-025-RA

Allows a high-resolution connection between your VGA-enabled computer and monitor up to 25 ft. apart with no ghosting.

#### Description

The P502-025-RA VGA Coaxial High-Resolution Monitor Cable (M/M) allows you to connect your VGA-enabled computer and monitor up to 25-ft. (7.62 m) apart. Constructed from mini-coaxial (RGB) and paired video wire, it supports video resolutions up to 2048 x 1536, including 1080p, with no ghosting. One HD15 connector is fixed at a 90-degree angle to allow more room for the cable and allow equipment to be pushed flush against a wall.

Foil and braid shielding delivers reliable, error-free signal quality and protection from EMI/RFI line noise that can distort or destroy data. Molded gold-plated HD15 male connectors with gold-plated contacts provide maximum conductivity and minimize data loss. Integral strain relief gives the cable extra flexibility, reduces stress, and helps the cable and connectors move freely without cracking.
