

- · Constant Power mode output
- · Metal housing design with functional Ground
- · Built-in active PFC function
- Class 2 power unit
- No load / Standby power consumption < 0.5W
- IP67 rating for indoor or outdoor installations
- Function options: output adjustable via potentiometer
 3 in 1 dimming function (Dim to off and Isolation design)
- Typical lifetime>50000 hours
- 5 years warranty

Applications

- · LED street lighting
- · LED architectural lighting
- LED bay lighting
- · LED floodlighting
- Type "HL" for use in Class I, Division 2 hazardous (Classified) location.

Description

XLG-50 series is a 50W AC/DC LED driver featuring the constant power mode output. XLG-50 operates from $90 \sim 305$ VAC. Thanks to the high efficiency up to 90%, The entire series is able to operate between $-40\%\sim90\%$ wide case temperature range with air convection. The design of metal housing and IP67 ingress protection level allows this series to fit both indoor and outdoor applications. XLG-50 is equipped with various function options, such as dimming methodologies, so as to provide the optimal design flexibility for LED lighting system. XLG-50 series comply with the latest version of IEC61347/GB19510.1 and UL8750 international safety regulations. The output and dimming circuit are also completely in accordance with the new regulations with isolation to ensure the safety of both user and luminaire system during installation.

NOTE

- 2. Please refer to "DRIVING METHODS OF LED MODULE".
- I relass refer to DRIVING METHOUS OF LED MODULE.
 I Length of set up time is measured at first cold start. Turning ON/OFF the driver may lead to increase of the set up time.
 De-rating may be needed under low input voltages. Please refer to "STATIC CHARACTERISTIC" sections for details.
- 5. The driver is considered as a component that will be operated in combination with final equipment. Since EMC performance will be affected by the complete installation, the final equipment manufacturers must re-qualify EMC Directive on the complete installation again.

 6. This series meets the typical life expectancy of >50,000 hours of operation when Tcase, particularly (the point (or TMP, per DLC), is about 75°C or less.
- 7. Please refer to the warranty statement on MEAN WELL's website at http://www.meanwell.com
- 8. Input over voltage only for XLG-50 I series and I series without UL/CSA certificate.

 9. The ambient temperature derating of 3.5°C/1000m with fanless models and of 5°C/1000m with fan models for operating altitude higher than 2000m(6500ft).
- 10. Only for XLG-50-A
- Only for XLG-30-A
 Products sourced from the Americas regions may not have the CCC/PSE/BIS/KC logo. Please contact your MEAN WELL sales for more information.
 For any application note and IP water proof function installation caution, please refer our user manual before using.

 Ripple & noise are measured at 20MHz of bandwidth by using a 12" twisted pair-wire terminated with a 0.1uf & 47uf parallel capacitor.
 To fulfill requirements of the latest ErP regulation for lighting fixture, this LED driver can only be used behind a switch without permanently connected to the mains.

■ DIMMING OPERATION

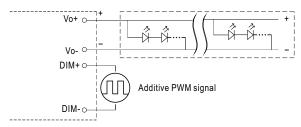

※ 3 in 1 dimming function (for AB-Type)

- Output constant current level can be adjusted by applying one of the three methodologies between DIM+ and DIM-:
 0 ~ 10VDC, or 10V PWM signal or resistance.
- Direct connecting to LEDs is suggested. It is not suitable to be used with additional drivers.
- Dimming source current from power supply: 100µA (typ.)
