Reference: EoL of IE-iMcV-VDSL2-LANextender Model # 851-18200

Dated: 9/19/2017

Part Number	Description
851-18200	VDSL2 Extender, copper to RJ11

To Whom It May Concern:

Advantech B+B SmartWorx has made a business decision to discontinue the sale of the IE-iMcV-VDSL2-LANextender Series. The chip manufacturer notified us recently that the chip is no longer available, and there is no suitable replacement for it. Please accept our sincere apologies for any inconvenience this decision may have cost you.

The IE-iMcV-VDSL2-LANextenders are modular in form factor, and must be installed in a chassis, ranging from one slot up to twenty slots, and in pairs to avoid any inter-operability with manufactures.

Due to limited stock of IC, 851-18200 will be discounted once stock runs out. Please consider reviewing your plans and we recommend placing your last time buy orders ASAP.

Advantech B+B SmartWorx offers the following products as replacements:

P/N	Description	Availability
EKI-1751-AE	VDSL2 Ethernet Extender Compact, Comercial Temperature. Stand-alone	Q4-2017
EKI-1751PI-M-AE	Industrial VDSL2 Ethernet Extender, with PoE on 4 ports (RJ45), Power Over VDSL (PoV) on Combo Line Port, Wide Temperature. Master/CO Unit must be in pair with EKI-1751PI-R-AE. Stand-alone	Q4-2017
EKI-1751PI-R-AE	Industrial VDSL2 Ethernet Extender, with PoE on 4 ports (RJ45), Power Over VDSL (PoV) on Combo Line Port, Wide Temperature. Remote/CPE Unit must be in pairs with EKI-1751PI-M-AE. Stand-alone	Q4-2017
