

LC Adapters and Cable Assemblies

LC Adapters and Cable Assemblies meet the growing demand for small form factor, high-density fiber optic connectivity with simplex, duplex, single-mode and multimode options.

LC connectors reduce space requirements by 50%, over 2.50mm ferrule connectors, without sacrificing performance. LC connectors are available in industry standard beige (multimode), blue (single-mode) and green (angle polish) colors, and will accommodate 900µm buffered fiber, 1.60mm, 2.00mm, or 3.00mm jacketed cable. With its six-position tuning feature, the connector may be used to achieve unprecedented insertion loss performance by optimizing the alignment of the fiber cores. Additionally, 45° and 90° boot options are available for 1.60mm and 2.00mm jacketed cable. Eight-port, quad, duplex and simplex LC mating adapters are available in blue, beige, green and aqua colors. The adapters are available in snap-mount or screw-mount configurations, ceramic or metal alignment sleeves, ultra-sonic welding or one-body structure, and can also be provided with safety shutters on one or both sides to help prevent eye injuries.

LC Connectors and Adapters

Features and Advantages

Adapters

New eight-port adapter design	Accepts eight simplex connectors, four duplex connectors or a combination of the two for design flexibility
Safety shutters optional: internal and external shutters for plastic adapters; external shutters for metal adapters	Provide laser eye-safety protection when the adapter is not fully populated
Adapters available in plastic or metal housings	For design flexibility. Metal housings provide Electro Magnetic Interference (EMI) protection
Screw- and snap-mount styles available on all adapters except eight-port metal adapters which are only available in snap-mount versions	Allows for installation flexibility

Jumper Assemblies

Common and proven technologies combined in the LC connector system	System delivers a high-performance and easy-to-implement fiber optic interface
Tunable connector	Optimizes insertion loss performance
Versatile RJ-45 latching connector system	Press-to-release design for ease-of-use
Simplex and duplex versions	Provide unidirectional or bidirectional communication
Tested to Telcordia GR-326 and Compliant to TIA/EIA-604-10A (FOCIS-10)	Ensures long lasting reliability and interminability

Applications

Telecommunication Applications

- Data Centers
- Hubs
- Servers
- Routers
- Central Office/Remote Hubs

Industrial Applications

Military/Aerospace Applications

Other Markets

- Optical DVI
- Storage Servers
- Local Area Networks (LANs)
- Premise Distribution

Data Center

LC Adapters and Cable Assemblies

Specifications

REFERENCE INFORMATION

Packaging:
 Eight-Port Adapters:
 Plastic adapters: plastic tray – 25 pieces each
 Metal adapters: plastic tray – 25 pieces each
 Quad Adapters: Individual bag or bulk pack
 UL File No.: Plastics used are UL94-V0
 Mates With: LC simplex or duplex jumper assemblies
 mate with respective simplex, duplex, quad or
 eight-port adapters
 Designed In: Millimeters
 RoHS: Yes
 Halogen Free: Yes

MECHANICAL

Mating Force:
 8.90N (mating for the LC Connectors)
 Durability (min.): 250 mates and de-mates

PHYSICAL

Connector Ferrule: Zirconia Ceramic
 Housing:
 Plastic (Ultem) and Metal (Zinc) for EMI versions
 Alignment Sleeve:
 Phosphor Bronze or Zirconia Ceramic
 Plating: Electro-less Nickel is used on EMI
 adapters for plating
 Operating Temperature: -40 to +85 °C
