### HARD HAT/SAFETY HELMET COOLING FAN

Managing heat stress is a major issue on job sites, and it starts by keeping your head area cool. The 60155 Cooling Fan is a one-of-a kind portable solution that provides hours of continuous airflow, to stay cool and remain focused on the job. Designed for Klein Tools hard hats and safety helmets with patent-pending accessory mounts for easy attachment and removal, it is powered by a detachable, rechargeable lithium-ion battery (Catalog no. 29025) that provides up to 6 hours of continuous operation. As an added convenience, the modular battery can also be used to charge other USB powered devices like phones, job site speakers, headlamps and more.

#### **CONVENIENT AND PRACTICAL**

The modular fan and battery leverage Klein's successful patent-pending accessory mount design on any Klein cap style, full brim, or safety helmet. Configure to your needs by simply repositioning the fan and battery and switching ducts.

GOOLER AIR

KLEIN TOOLS

Easily detachable long or short ducts mount securely to fan and direct airflow to desired area
