Item description

This analog output module transmits intrinsically safe 4–20 mA signals in Zone 0+1 hazardous areas.

The WAGO I/O System 750 must be installed either in Zone 2 or in a non-hazardous area.

Power is derived from the power jumper contacts.

The outputs are short-circuit-protected.

Indicators:

- Green LED (output status)

Field and system levels are electrically isolated.

Subject to changes. Please also observe the further product documentation!

Data Notes

Note

The analog output module must only be operated with a 24 VDC Ex i power supply!

General information (e.g., installation regulations) on explosion protection is available in the WAGO I/O System 750 manuals!
