

## FEATURES

- Relay monitors phase sequence and failure
- Designed for monitoring 3-phase primaries
- Input from all phases maintains functionality in case of one-phase failure
- Input and monitored input voltage: 3 x 480V
- Fixed time delay (T1): 500ms
- Adjustable time delay (T2): 0 to 10 seconds
- Fault indicator: Red LED, plus opening of output relay contact
- Relay output form: SPDT (form C) 8 Amps / 250VAC
- DIN rail mounting
- UL and CE approvals, RoHS compliant

## MODE OF OPERATION

**Voltage Monitoring** Three-phase monitor confirms correct sequence and detects failure of any one phase. Phase failure results in a flashing red LED and opening of output relay.

Green LED indicates presence of supply voltage. Only 2 phases are needed for Control operation.

Incorrect phase sequence is indicated by constant red LED and opening of output. A front panel potentiometer adjusts failure indication delay up to 10 seconds.

A low voltage condition (60% of nominal) results in immediate failure indication, red LED and open output. Threshold can be set from 70% to 95% with a second front panel adjustment.

**256-480**

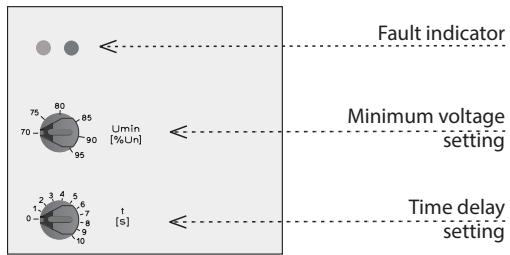

**VOLTAGE  
and PHASE  
MONITOR**

## SPECIFICATIONS

<b>Supply and measuring</b>	..... L1, L2, L3
<b>Measuring terminals</b>	..... L1, L2, L3
<b>Supply/measured voltage</b>	3x480 V
<b>Minimum threshold</b>	..... adjustable, 70%–95% Nominal
<b>Cutoff threshold</b>	..... 60% of Nominal
<b>Power Consumption (max)</b>	.. 2 VA
<b>Hysteresis</b>	..... 5%
<b>Max. constant voltage</b>	.... 3x550 VAC
<b>Peak overload &lt;1s</b>	.... 3x600 VAC
<b>Time delay t1</b>	..... 500ms max
<b>Time delay t2</b>	..... adjustable, 0–10s
<b>Relay output form</b>	..... SPDT Form C (AgNi)
<b>Rated current</b>	..... 8 A / AC
<b>Switching capacity</b>	..... 2500 VA/ AC, 240 W/ DC
<b>Inrush current</b>	..... 10 Amps
<b>Indication of state</b>	..... Red LED
<b>Mechanical life</b>	..... 10 million operations
<b>Electrical life</b>	..... 100,000 operations
<b>Operating temperature</b>	... -20°C to +55°C
<b>Storage temperature</b>	..... -30°C to +70°C
<b>Dielectric strength</b>	..... 4 kV
<b>Operating position</b>	..... any
<b>Mounting</b>	..... DIN rail EN 60715
<b>Protection degree</b>	..... IP 40 from front panel
<b>Max. cable size</b>	..... 14AWG
<b>Standards</b>	..... EN 60255-6, EN 61010-1, UL, CE, RoHS
